ONLY IDLE RUMORS FROM THE FAR EAST

Firing Heard From Near Port
Arthur Again.

Wild Reports Are Current But Little
Foundation—10,000 Sick and
Wounded Soldiers.

RUSSIANS SEEK CONTRABAND

St. Petersburg, Aug. 9.—The city is full of wild rumors that Port Arthur has fallen, due to reports from Chefoo of another assault in which the fortress was taken by the combined land and sea forces, though the Japanese lost three warships, including the protected cruisers Chiyoda and Itakabana. There is not the slightest confirmation of these rumors. It is believed that the Japanese are still unable to capture the outer works, much less the fortress itself.

10,000 SICK AND WOUNDED.

London, Aug. 9.—According to the correspondent of the Morning Post at Shanghai, it is reported here that there are 10,000 sick and wounded persons at Port Arthur and that the Russians are negotiating with the Japanese to send the hospital ship Mongolia away full of sick.

It is reported, the correspondent says, that Lieutenant General Stossel (in command of the military forces at Port Arthur) has committed suicide, and that a panic prevails at Port Arthur.

ONLY DEBILITATORY SHOOTING.

Osaka, August 9.—Firing at Port Arthur was heard here from 10:30 last night and continued at frequent intervals until 3:30 this morning. The firing was very heavy, but a junk which left Port Arthur August 6 reports that nothing had occurred except a desultory exchange of shot, since July 28.

CAVALRY AS REAR GUARD.

Tokio, August 9.—It is reported that the Russians near Liau Yang are retreating along the road to Mukden, leaving the cavalry alone to act as a rear guard. The report has not been confirmed.

PATROLLING FRENCH COAST.

London, August 9.—Lloyd's Plymouth agent reports that the French coast is being patrolled by Russian cruisers on the lookout for contraband. The British steamer Minora was halted but not molested, near Funnistere.

REPULSED BY OUTPOSTS.

Canton, Korea, August 9.—A dispatch says that thirty Russians appeared before the town but were repulsed by Japanese outposts.

SIVOUCH SCUTTLED.

Naw Chwang, August 9.—A Japanese gunboat, which has reached here from a trip up the river, reports that she fired a few shots at the sunken Russian gunboat Sivouch, which, it is stated, was scuttled by her crew and not blown up as previously reported.

The Russians destroyed their stores before leaving for Hail Cheung, either owing to being in a hurry or on account of defective transportation.

All is quiet here and trade is fairly brisk considering the circumstances. Everybody apparently is well contented with the Japanese occupation, while regretting the severance of personal friendships formed with the Russian officers.

The Japanese restrictions regarding the bounds of settlement are rigidly enforced.

ATTACK ON JULY 27.

St. Petersburg, August 9.—General Stossel, commanding Port Arthur, confirms the capture of Wolf Hill by the Japanese. He says the Japanese loss was heavy, and that they have been reinforced. "The Japanese attacked Port Arthur July 27 with a terrible artillery fire directed especially on Juplazu Hill. They were repulsed with a tremendous loss. The Russian artillery has checked Japanese who at Port Arthur number 70,000."

FORMER SENATOR VEST DIED TODAY

Prominent Democrat of Missouri
Passed Away.

He Was a Native Kentuckian But
Moved to Missouri When He
Was a Young Lawyer.

HE WAS 74 YEARS OF AGE

Sweet Springs, Mo., August 9.—Ex-Senator George Graham Vest died at 5 o'clock this morning from general debility, aged 74.

Senator Vest was born at Frankfort, Ky., December 6, 1830, and graduated at Centre College, Ky., in 1848.

He graduated in the law department of Pennsylvania University at Lexington, Ky., in 1853.

He moved the same year to Missouri and began the practice of law in the central part of that state and was a member of the Missouri house of representatives in 1860 and '61.

He was elected to the United States senate in place of James Shields, Democrat, who had himself been elected to fill a vacancy caused by the death of Louis B. Boggs.

He took his seat March 18, 1879, was re-elected in 1885-90 and in '97. His term of service expired March 3, 1903.

GIVES HIS CHILDREN A STREET CAR LINE

Col. J. S. Crump, of Columbus,
Ind., Makes Unusual Present.

Mrs. C. E. Whitesides, of Paducah,
Is One of the Children Who Now
Own the Big Plant.

IT IS VALUED AT \$60,000

Colonel John S. Crump, of Columbus, Ind., father of Mrs. C. E. Whitesides, of 123 North Sixth street, who was in Paducah recently in connection with the electric line from Paducah to Cairo and made many friends during his stay, has just made his six children a generous present—a whole street car line and electric light plant.

Colonel Crump is one of the wealthiest men in that part of Indiana, and his wealth has been due solely to his indefatigable work and honest, progressive methods in business. He has amassed a big fortune, and has furthermore retained the respect and good will of everybody while he was doing it, which is not an easy feat to accomplish.

Colonel Crump's recent achievement, however, was the giving away of his street car and electric light plant in Columbus to his children.

The plant is one of the finest of its size in the state and is valued at about \$60,000, making the gift equivalent to about \$10,000 for each of the children.

Needless to say, they are all very much pleased that their father has such confidence in their ability that he decided to turn the plant over to them and leave its entire operation to them. It is a gift of which anyone would be proud.

Several of Colonel Crump's children are known in Paducah. Mrs. Whitesides is one of Paducah's most popular society leaders and Mr. Will Crump, her brother, formerly spent a great deal of his time with friends in Paducah.

Mrs. Bob Ruddle, of Chicago, was formerly Miss Nettie Crump, and was married about three months ago. The other children are Mrs. Stottschalk, and Messrs. John and Charles Crump.

Mr. and Mrs. John U. Robinson will leave Thursday for St. Louis to attend the fair.

SHIFTING SANDS COVER MANY BODIES

Colorado Disaster One of the
Worst in History.

Victims Were Drowned Like Rats—
Most of Them Lived in Neigh-
boring Cities.

75 BODIES ARE RECOVERED

Pueblo, Col., Aug. 9.—The wreck of the World's Fair Flyer on the Denver and Rio Grande railroad near Eden, seven miles north of Pueblo, proves to have been one of the greatest railroad disasters in the history of the country. Two crowded passenger cars and a baggage car were engulfed in the torrent that tore out a trestle spanning Steele's Hollow, otherwise known as Dry Creek, and, so far as known tonight, only three of the occupants of these cars escaped death. Fortunately, two sleeping cars and a diner, completing the train, remained on the track at the edge of the abyss, and none of their occupants was killed or injured.

How many perished probably will never be definitely ascertained for the treacherous sands are drifting over the bodies. Searching for the dead was begun about midnight on a large scale, and still is in progress. All corpses found were brought to Pueblo and placed in four morgues here. Last night seventy-two bodies had been recovered, and of these fifty-eight had been identified. During the day bodies were recovered all the way along Fountain river from the scene of the wreck to this city.

None of the bodies is badly mutilated, and all are in such condition as to be recognizable. Many identifications have been made by articles found on the bodies of persons viewed, persons recognizing features.

Masses of earth had caved in from the sides of the river at many places, and a large number of bodies were dug out of the sand. Some of the bodies were found lodged in shrubbery along the banks and others in the wreckage in midstream.

Without doubt the great majority were drowned when the cars were plunged into the swirling water, thirty-five feet deep and 100 feet wide.

The walls of the so-called Dry Creek are irregular, but still so narrow that it is almost impossible to understand how the great coaches, the baggage car and tender could have been swept so far without becoming lodged against the sides. Most of the bed of the creek is now visible with little streams waving about the strips of sand, forming islands of mud and sand which are being searched for bodies that may lie buried in them.

Whether the engine and the torrent of water from the cloudburst struck the bridge simultaneously, or the torrent had already undermined the structure, is not known, but the reports at the Denver office say that the air was thrust on and this saved the diner and sleepers from being precipitated into the creek. If the water was at a high mark the depth ranged from twenty to twenty-five feet and the current was irresistible.

When the baggage car, smoker and chair car left the trucks and plunged into the stream they were swept down by the current and the trucks torn off. This lightened them and the volume of water can be understood when it was reported by Superintendent Bowron that they were carried four miles before they came ashore. The three cars were found near each other.

The rescuers suffered great hardships, many of them having been constantly at work in the cold rain for hours without food or relief of any kind.

At 11 o'clock yesterday the river began receding slowly, and bodies were discovered on sand bars partially covered by the mud. They were brought to the city and placed in the morgue.

The disaster was the worse that has ever occurred on the Denver and Rio

ALL IN READINESS FOR BIG CONCLAVE

17,000 Sir Knights Will be in
Line at Louisville.

The Knights of Pythias Bi-ennial
Begins There Next Sunday—
Thousands Are Going.

PADUCAH TO BE REPRESENTED

The twenty-third convention of the supreme lodge, Knights of Pythias, and the biennial encampment of the Uniform Rank will begin in Louisville next Sunday with an attendance that gives promise at this time of surpassing any previous similar event in the history of the order. Official reports made by twenty-six Brigadier generals to the biennial association call for accommodations for 15,000 uniformed men.

Tracy R. Haugs, of Grand Forks, N. D., will preside over the convention of the supreme lodge. He will be succeeded in the chair of supreme chancellor by Charles E. Shively of Richmond, Ind.

Eight states have candidates for the office of supreme vice chancellor. Major General James R. Carnahan of Indianapolis, Ind., will be re-elected commander of the Uniform Rank.

Elaborate arrangements have been made by the citizens of Louisville for the entertainment of the Pythians. Thousands of dollars have been raised by popular subscription. The camp of the Uniform Rank will be located at Shawnee park, and here General Carnahan will review the troops. The general parade will take place Tuesday afternoon, August 16, and it is estimated there will be 17,000 Sir Knights and fifty bands of music in line. Thirty-nine companies, representing sixteen different states, are entered in the competitive drill, for which cash prizes aggregating \$10,000 are hung up. Two grand balls are included among the social features of the week's program.

Nashville and New Orleans are after the biennial of 1906.

Paducah will send quite a delegation to the convocation, but it has not yet been decided exactly who is going. The local lodge, Uniform Rank, however, will not enter any of the competitions. It was at one time thought that the Paducah Sir Knights would compete for some of the prizes, but it was subsequently decided not to.

SULTAN WANTS STATEMENT.

Constantinople, August 9.—The sultan, backed by Great Britain, persists in asking Russia for a written statement regarding the czar's intentions respecting the passage of the Dardanelles by the Russian volunteers' fleet. The Porte demands that the vessels pass separately without arms or the munitions of war.

Major L. C. Norman, former state auditor, is critically ill at Frankfort.

Grande railroad. Dry Creek, where the accident happened, is one of the most dangerous points on the road. It is not far from Butte, where two years ago, washouts occurred which crippled the service of the line but entailed no loss of life. It is close to the foothills, which by reason of repeated cloudbursts and washouts have been slowly closing in, the bed of the creek becoming continually deeper until it has reached a depth of about twenty-five feet.

Fireman Mayfield said that as the engine struck the trestle, it seemed to rear up and fall upon its side, to the right or engineer's side. The fireman jumped and escaped.

The operator at Eden, a mile away, heard the cries for help, and rushed to the creek. When he got there not a person could be found who had gone down in the wreck.

DEATH LIST 106.

Pinon, August 9.—Seventy-six bodies have been recovered. It is estimated the death list is 106. Many bodies were washed into Fountain and Arkansas river and will not be found for days.

TRAIN PLUNGES INTO THE GREEN RIVER

Ran Onto a Green River Bridge
When Draw Was Open.

The Engineer and Fireman Fell Fifty
Feet With the Engine and Were
Drowned.

THE BRAKES WOULDN'T WORK

Spottsville, Ky., Aug. 9.—A through freight, No. 64, pulled by engine No. 16, eastbound, over the Louisville, Henderson and St. Louis railroad, ran through an open draw in the bridge here at 8:45 o'clock last night, dumping the engine and nine cars into Green river.

Engineer Walter Reidel and Fireman Carl Lisben, of Cloverport, went down with the engine and were drowned.

Two negro tramps were also known to have lost their lives. One car was loaded with hogs, while the other eight were laden with merchandise.

The train left Henderson at 7:45 o'clock in charge of Conductor D. O. Benton, and arrived here at 8:38, but was not scheduled to stop.

The draw span of the bridge was open, the steamer Crescent City having just passed through as the train reached the bridge approach. The train which was going at a fair rate of speed, shot onto the bridge, and in an instant the engine was plunging into the river fifty feet below, followed by the nine cars.

Different theories were advanced as to the cause of the wreck. Night Watchman John Richardson said he had the usual red light out at the bridge approach, which is always a signal that the draw is open. He said he saw the train coming, but thought it would slow down, as was the custom when the danger signal is in view. He, with Conductor Benton, advanced the theory that the air brakes must have refused to work, as the engineer certainly saw the signal.

NOT SATISFIED

GREAT BRITAIN WILL FURTHER
AGITATE SINKING OF
SHIP.

London, August 9.—In the house of commons Premier Balfour, replying to a question on the subject, said the British government adhered to its contention that there was no adequate justification for the sinking of the British Steamer Knight Commander by the Vladivostok squadron. The premier made a general statement of the government's views on the Malacca and Knight Commander incidents. He pointed out that the government's objection to the seizure of the Malacca was based entirely on the British contention that ships issuing from the Black Sea under the commercial flag of Russia were incompetent to convert themselves into cruisers.

ASKED TO SHAVE

KNOXVILLE NEGRO BARBER
FATALLY WOUNDED BY
STRANGER.

Knoxville, Tenn., Aug. 9.—John Mills, a negro barber, asked a white man passing his shop to shave. In reply he received a bullet from a pistol. Mills will die. His assailant was not arrested.

THE GOVERNOR RETURNS.

Frankfort, Ky., Aug. 9.—Governor Beckham, accompanied by Mrs. Beckham, have returned from Chicago. Acting Governor Thorne went to his home at Eminence.

EARTHQUAKE AT LISBON.

Lisbon, Aug. 9.—A slight earthquake was felt here last evening but there was no damage.

Dr. D. Y. Winston, a well known surgeon, formerly of Russellville, Ky., is dead at Clarksville, Tenn.

SHOT DOWN THE HILL WHEN TUG BROKE

Marketer Schmidt and James
Burns Have Close Call.

Mr. Fritz Schmidt's Wagon Backed
Down Steep Hill When the
Tug Broke.

NO ONE WAS INJURED

Mr. Fritz Schmidt, one of the best known gardeners and farmers in the county, met with an accident this morning before daylight which almost cost the life of his friend and neighbor, Mr. James Burns.

The two men were coming to town several miles out the Mayfield road about 3 o'clock when they found where a bridge was being repaired near Heudon Hill. They were forced to take a roundabout course in order to get past, and were driving along in the dark when they came to a steep hill.

The man with Mr. Schmidt got out with a lantern to light the way and Mr. Schmidt, who had a heavy load of canteloupes and peaches, got out to lighten his wagon.

He was driving his horse up the hill when one of the "tugs" suddenly broke and the wagon started back like a cannon ball.

Mr. Burns was only a few feet behind, and would have been struck and killed had not the wagon swerved from the "tug" being broken on one side, and backing in a semi-circle, turned completely over, missing Mr. Burns and his wagon by a narrow margin. If Mr. Schmidt had been in the wagon he would probably have been caught and killed when it turned over.

Mr. Schmidt says he would as soon have had a street car hit him as the wagon with the force it broke loose, and the escape of Mr. Burns was consequently a fortunate one.

Mr. Schmidt was forced to leave nearly a load of peaches and canteloupes where the accident occurred, as the hill is so steep some of them rolled a block or more.

ANOTHER LEAVES.

PROMINENT INDIANA DEMO-
CRAT COMES OUT FOR
ROOSEVELT.

Terre Haute, Ind., Aug. 9.—Dr. W. H. Roberts, perhaps the best known physician in Terre Haute, a large property owner and a lifelong active Democrat, says he cannot vote for Parker, and explains that while the judge may be a good man, yet, like the stream, he cannot rise higher than his source, in a political sense. He says:

"I do not like David B. Hill, August Belmont or Sheehan, and they have made Parker the nominee of the party. And I don't want to vote for a dollar mark for vice president. I have not been busying myself talking politics, but I have heard many Democrats express themselves as I do. Recalling the last fifteen Democrats with whom I have talked, only three are now determined to vote for Parker. They are not the kind which the newspapers interview, but they have been good party men, as well as good citizens."

Terre Haute has no Republican newspaper now, and the two independent newspapers so far have confused their news reports as to political sentiment to interviews with the Democratic leaders of the Parker movement.

SOMETHING DOING MONDAY.

Monday next is the time set for the beginning of the drafting period in baseball, and on that day the major league club owners will file their claims with the secretary of the national commission for such minor league players as their trusty scouts

have recommended to them, says the Chicago Tribune. There will be no rush of telegrams to Cincinnati, because the stars of the minor leagues already have been purchased or have strings to them reaching back to last spring or last year. Nearly all of the big league clubs have "farmed" players in the ranks of the minors, despite the ironclad prohibition of the national agreement. Other clubs have released players to a minor team with the option of selecting any players in the minor club before the regular drafting season opens. The minor leagues have loaned players to such other in spite of their own agreement to the contrary. Consequently there will be one of the prettiest mesas of tangled strings and claims that was ever seen about a week after the drafts are announced and the rival claimants begin to assert themselves. Being a forbidden practice, there may be some effort on the part of the minors to slip out of bargains made in the spring. This they can readily do, because the major league clubs can establish no right to a farmed player, through the courts of baseball law, but only the unwise minor magnate will accept this chance because he will be a marked man in future and will find it difficult to get favor from the big leagues. It would be a great thing for baseball in general if the tangle which is coming should prove to be of such unmanageable proportions as to thoroughly disgust all club owners with the practice of loaning players and bring about its actual abolition. It is more likely to happen, however, that these inevitable disputes will cause a lot more friction between the two major leagues, several members of which are already at sword's points. That would be a hardship to the sport, which is suffering now from the suspicion, envy and shortsightedness of magnates who outrage all the principles of sportsmanship to feed fat ancient grudges.

A CAIRO SPORT.

A Cairo fan, who has the real stuff says he will wager \$1,000 or \$2,000 that the Cairo team as at present constituted, can beat any team in the Kitty league two games out of three on any neutral ground at the close of the season. He further will permit the one who accepts the offer to pick his men from any team in the league

outside of Cairo. The sporting editor of the Bulletin would like to hear from any one inclined to take a chance at this proposal and the two parties will be brought together so the difference of opinion can be settled.

By agreement between Paducah and Clarksville, the agreement being ratified by the league secretary, the games scheduled between the two clubs at Clarksville on August 13, 14, 15 have been transferred to Paducah and the games scheduled between the same teams on August 16, 17, 18 at Clarksville have been transferred to Paducah. The transfers are caused by the fact which is to be held at Paducah August 19-20. —Cairo Bulletin.

Another charity ball game will be played on Labor Day at Wallace Park grounds when the Peopoles and Coco Colas will meet in a match game, their first this season. These teams are composed principally of society boys and played last season for charity. The proceeds of the game, over expenses, will go to the Home of the Friendless.

NEW STAMPER

INNOVATION RECEIVED AT
THE POSTOFFICE THIS
MORNING

A new stamping machine was received at the postoffice this morning, and will be put up and started as soon as the expert from the factory arrives. Only a few years ago the business in the local office was so small that all stamping of letters was done by hand, but later on, an electric outfit was received into which the letters were fed one at a time by one of the clerks.

The new machine feeds itself and stamps at the same time. The letters are simply stacked up and the machine started and it does the rest, requiring no more attention. It can in this way stamp thousands an hour.

VERY ORDERLY

ONLY THREE EXTRA OFFICERS
NECESSARY TO CONTROL
YESTERDAY'S CROWD.

Chief of Police James Collins deserves credit for handling the enormous 8th of August crowd yesterday and keeping good order with the aid of but three extra police.

The extra men were placed on at the depot where the excursion trains discharged the greater portion of passengers. There was no trouble experienced, the visitors being mostly sober and not inclined to cause trouble. At the fair grounds and Forrest park where the celebrations were held, only one difficulty was reported and this was in the nature of a slapping. No arrest was made.

The visitors and home people for the most part conducted themselves well.

OUT INSPECTING

L. C. Officials Looking Over
Work on Louisville Division.

The New Bridge, Block Signals and Sidings to Be Looked Over.

Mr. H. McCourt, assistant general superintendent of Southern lines of the L. C., accompanied by Superintendent A. H. Egan and Roadmaster F. L. Thompson, of the Louisville division of the road, left this morning at 7:30 o'clock for Central City to inspect the improvements on the Paducah district of the road.

The officials will inspect the work on Tennessee river bridge, the block system and the extensions of sidings and new passing tracks. The work is being pushed in order to have the division in shape by the regular fall rush of business.

The block system will be completed within two weeks and all sidings and extensions have been completed except one and work on this has been started. The officials are pleased with the push exhibited by the men in charge of this work and will no doubt find everything in the best shape possible.

The approximate cost of the improvements on the district alone is \$68,000 while the improvements to the Paducah shops will amount to several thousand dollars.

IN THE VAULT

MANY THINGS STORED THERE
THAT HAVE NEVER BEEN
CALLED FOR

In regard to the action last night of the police commissioners authorizing the police department to store valuables in the Nagle safe, Chief Collins said today that there is a vast amount of plunder in the vault at the city hall, but not much of it is very valuable. There are possibly half a dozen fine watches, one worth \$100, but most of them are cheap timepieces.

The property accumulates with remarkable rapidity. There are dozens and dozens of pocket knives and trinkets. Some of these things are found and turned over to the police as stolen property and no owner ever found, some are left by prisoners who escape, and often a person drops a pistol and disclaims its ownership through fear of being prosecuted for having it. Many people seem to think it is against the law to have a pistol in one's possession.

It is not known what will ever be done with the stuff, but if it keeps accumulating an extra room may have to be built at the city hall.

RHEUMATISM.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop., Sullivan House, El Reno, Ok., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, \$1.00. DuBois, Kolb & Co.

DOUBT AT MAYFIELD.

Both sides at Mayfield claim a majority from the registration held Saturday for the local option election to be held on August 20. The whiskey people claim that the result shows they are in the majority, while the "drys" claim that they will win by about forty votes.

EVANSVILLE COUPLE

COME HERE ON EXCURSION
AND DECIDE TO WED.

Miss Irma Wilson and Mr. Arthur Kohl, of Evansville, Ind., were married yesterday afternoon at 2 o'clock at the parsonage of the Broadway Methodist church, on North Seventh street. Rev. T. J. Newell performed the ceremony.

The couple came here from Evansville, on an excursion, and decided to be married while here. They were to have been married in about two weeks.

The bride formerly lived in Paducah, and is related to the family of Mr. U. H. Wilson, 439 South Fifth street. The couple returned to Evansville last night.

We have used it for several years, it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c, \$1.00. DuBois, Kolb & Co.

MASS OF SORES

Awful Suffering of a Boy
from an Itching
Humour.

CURED BY CUTICURA

Not One Square Inch of Skin on
His Whole Body Was
Unaffected.

"My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did not do any good. At the time I was induced to try Cuticura Remedies he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heart-breaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. I used the Cuticura Resolvent for his blood, and now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day."

ROBERT WATTAM,
4923 Center Ave., Chicago, Ill., Dec. 30, 1927.

No return in six years, Mr. Wattam writes, Feb. 23, 1933.

"Your letter of the 21st in regard to the case of my little boy at hand. I am truly thankful to say that the cure effected by the Cuticura Remedies has been a most thorough and successful cure to date."

Read throughout the world. Cuticura Remedies, the famous skin cure, is sold in all drug stores. It is sold in 10-cent and 25-cent boxes. It is sold in 10-cent and 25-cent boxes. It is sold in 10-cent and 25-cent boxes.

INFURIATED SON SHOOTS FATHER

Creates Great Excitement at the
Springs Near Fulton.

Confederate Reunion Talked of For
Earlington in September Next—
Hopkinsville Happenings.

OTHER LATE KENTUCKY NEWS

Fulton, Ky., August 9.—Saturday afternoon while the guests and visitors at Anstin Springs, a health resort about ten miles east of Fulton, were enjoying themselves, Howard Abernathy, a young son of Mr. Robert Abernathy, who lives at or near the springs, came upon the ground with a shotgun which he had hidden around so recklessly as to terrify all he came in contact with. His father understood to get the gun but when about twenty steps away the son raised the gun and fired, the load of squirrel shot striking him in the abdomen, side and arm. Mr. Abernathy walked to the house and Dr. Simmons, of Dukedom, was sent for, who dressed his wounds. While the wounds are not necessarily fatal, yet they may cause his death.

Mrs. Dr. W. H. Snow, who was spending the day at the springs, happened to be in the line of fire, though some distance away, and received one of the shot in her shoulder, inflicting a painful wound. The boy who did the shooting is said to be a bad, incorrigible character. After the shooting he ran off into the woods and had not been arrested at last accounts.

GUN CLUB TOURNAMENT.

Hopkinsville, Ky., August 9.—The third annual tournament of the Hopkinsville Gun club will be held at Cerulean Springs August 25 and 26. The place selected for the shoot at Cerulean is admirably adapted to the occasion, being a large field just back of the hotel.

The ground is as level as a floor and a grove will furnish shade for the visitors and shooters.

WEDDING AT WATER VALLEY.

Water Valley, Ky., August 9.—Mr. Allan Thurman and Miss Stella Farmer were united in marriage Sunday evening at the home of the bride in Water Valley. Mrs. Thurman is the pretty and talented daughter of Mr. and Mrs. R. F. Farmer, formerly of Fulton.

FULTON DEMOCRATS.

Fulton, August 9.—The Democratic executive committee of Fulton county, which met at Hickman, fixed Tuesday, November 8, as the day upon which to hold the precinct primaries. This is the day of the general election.

KILLED UNDER TRENTLE.

Elizabethtown, Ky., Aug. 9.—The body of an unknown white man, supposed to be Louis Zinsmeister, was found beneath a trestle on the Illinois Central railroad near West Point. It is supposed he fell through the trestle. He fell a distance of thirty feet and it is thought he was killed before he struck the ground.

CONFEDERATE REUNION.

Earlington, Ky., Aug. 9.—Mayor Burr and the board of councilmen of Earlington have extended formal invitation to the Second Kentucky Brigade, Union Confederate Veterans, General J. B. Briggs, Russellville, commanding, to hold their annual reunion here in September. A committee from Madisonville camp, No. 528, held a meeting here and the invitation goes to the commanding general with their recommendation that it be accepted.

MINER KILLED.

Owensboro, Ky., Aug. 9.—One Pagan, a miner at the Milton coal mines, fell down a shaft sixty feet deep, breaking his right leg in three places, displacing three ribs and tearing almost all the flesh off his face. He will die.

DEATHS IN CHRISTIAN.

Hopkinsville, Ky., Aug. 9.—Miss Hope Hancock, daughter of Lewis Hancock, of Lafayette, was stricken with paralysis while visiting a neighbor and died in a few hours. She was twenty years old.

John Maret, a farmer of near Fruit Hill, aged eighteen years died last night of typhoid fever, after an illness of less than a week.

Love is too busy encouraging to have any time to criticize.

FIFTY THREE YEARS AGO TODAY IT CAME

Paducah Had Her Greatest
Storm on the River in 1851.

Forty Steamboats Were at the Wharf
When the Hurricane Struck
Them.

TWO WERE TURNED OVER

"This is August 9th," remarked Captain Joe Fowler this morning when he came down to the boat store to begin his day's work. "It was fifty-three years ago that Paducah had her greatest storm on the river," he resumed.

"I'll never forget that storm, and reckon there are few left here today who remember it. The storm was not a cyclone, but a straight wind—a tornado or hurricane."

"There were then at the wharf here forty steamboats—the finest afloat on the Western Waters. All of them were blown away except the Caroline E. Watson. Two of them, the Dover and the Caledonia, were turned completely over. Fortunately, however, and somewhat remarkably, there was not a life lost."

"The storm came up in the afternoon about 4 o'clock and was from the northwest. It did not last long, but when it was over the wharf was a sight and there were steamboats in most every direction you could look except straight up."

"That was a long time ago, however, and there is not a single captain of those days who is still in commission."

STATE MEETING

CONFEDERATES WILL BE IN-
VITED TO LEXINGTON
SEPT. 8.

Plans are now on foot by the Lexington, Ky., camp of Confederate Veterans to hold a state reunion there during the early part of September. A meeting was held in the rooms at the courthouse Saturday at which arrangements were practically completed for the entertainment of the visiting veterans. The Lexington camp has decided to give a big barbecue and burgoon at Woodland park, and every Confederate veteran in the state will be given a special invitation to be present. The reunion will be held September 8, and one of the biggest spreads ever given in the state will be held under the trees in the park. A program of speaking will be arranged, which will include the names of the most noted orators in the state.

CATARRH CURED AT 80

HEALED AS BY A MIRACLE OF
THIS DREAD DISEASE AFTER
HOPE HAD BEEN
ABANDONED.

Lawrence, Kan., August 9.—D. P. Walling, an octogenarian of this city, living at 915 Kentucky street, was miraculously cured in twelve days of chronic catarrh by ascaton, the new Anstrian discovery. Mr. Walling is enthusiastic over his cure, because before taking the ascaton he had abandoned all hope of recovery, owing to repeated failure of other remedies to relieve his distress. He procured the drug from the Anstrian dispensary, No. 6 East 11th street, New York City, which is commissioned to send out trial bottles free by mail to all applicants by letter.

COL. MOTT AYERS

MARRIES A BEAUTY OF MT.
STERLING, KY.

Louisville, Ky., August 9.—Colonel Mott Ayres, formerly of Fulton, Ky., and Miss Mary Miller Coleman, daughter of Mr. G. E. Coleman, of Mt. Sterling, were married here at noon at the Louisville hotel. They go to St. Louis for a month's honeymoon.

Colonel Ayres has been in the insurance commission's office at Lexington for the past eight months. He is well known and popular wherever he is known, and is son of Mrs. L. W. Rowell, of North Fifth street, Paducah. He often comes to Paducah.

There are some sub-committees, also, and the union expects to have the usual big celebration this year.

hundreds of people from neighboring cities to come and assist. There will be a big parade, barbecues and other forms of amusement suitable for the occasion.

DEATH OF A CHILD.

Officer and Mrs. J. W. Clark, of Clements street, Mechanicsburg, are mourning the death of their four months old child, who died yesterday afternoon. The funeral took place this afternoon, burial at Oak Grove.

A BOYCOTT

Has been declared by the labor unions against the products of the Postum Cereal Co., Ltd., viz: Grape Nuts and Postum Food Coffee.

The labor papers notify the public not to buy these things until Mr. O. W. Post, the proprietor, obeys the orders of the unions.

These "orders" are that he withdraw the advertising from certain newspapers that have fallen under their displeasure.

They openly announce that they propose to "break up," "ruin" and "put out of business" the publishers of such papers, and insist that Mr. Post join in this conspiracy with them.

These publishers have been faithful in their contract with Mr. Post, and are upright business men and good citizens, their only crime being that they decline to turn over the management of their papers to the leaders of the labor trusts, alias unions, who are generally ignorant, willful, and violent men, incapable of conducting a business.

Mr. Post declines to be a party to such unlawful conspiracy to financially ruin anyone, and this together with the fact that he has been rash enough to publicly expose some of the criminal acts of members of labor unions has produced this boycott.

The average American citizen, not employing labor, knows little of the insufferable arrogance, impudence and violence of the ignorant bullies, decorated with brief power by the most tyrannous of all trusts, the "labor trust" or unions.

Put supreme power in the hands of any ignorant man, not accustomed to affairs, and he quickly becomes a bully, denouncing and abusing anyone and everyone who does not instantly obey his "orders." He cares nothing for law or the rights of others.

The unions are made up of two classes. First, the men who have a ready and abusive tongue, and who can howl down, and by violent and loud talk, dominate the meetings of the unions.

These men are seldom if ever good workers, or thrifty house-owning and desirable citizens, they have small chance on their own merits to earn first class wages unless they can force themselves on employers by a union card. They bring on strikes and misery for good workmen, and try to, and do, blackmail employers into settling same by paying them graft money. Some of them have been jailed for such offenses, but the great majority still hold forth. They have brought untold disgrace on the fair name of "labor" and made the term "the poorer worker man" a by word, hissed and laughed at by the public.

The second or other class in the labor unions is made up of good capable, intelligent, peaceable, thrifty citizens, who go into unions with the laudable purpose of bettering their conditions and to support an honest association, which they hope will be honestly conducted, truly and fairly in the interests of labor, but to their surprise and disgust they find that whenever they try to speak in the meetings for fairness and honorable procedure, they are booed and howled down by the other class.

They try to counsel peace, equity, and justice, but they might as well launch a feather in a cyclone. Then they some times try to keep at work when they are fair, but they are abused, and frequently their families maltreated and themselves beaten back into submission, so there are literally hundreds of thousands of decent American workmen, absolutely forced to bear the disgrace and ignominy of the galling yoke of unionism, because of the hated tyranny of this class.

Every American of the right sort is a workman, either with brain or hand, or better yet, with both, and in the mind of each is a fundamental deep seated respect for the able, competent, thrifty, and peaceable worker, and a corresponding dislike and antipathy to the arrogant and violent pretender of the other class.

The second class named, are for the time being forced to stand the denunciations of the public against labor unions, for they are in sad company, which has brought disgrace upon the name of unions, so there seems no way but for the decent man to stand it until in some way they can obtain control, and make the old or new unions, which they may form, lawful, respectable and worthy of the esteem of the public.

We are no record as being friends and well wishers of the second class named, and as thoroughly and unflinchingly opposed to the lawbreakers, criminals, and bullies of the other class, so when union men denounce and revile us, it is easy to determine in which class they belong.

The union men in the first class are genuine and undeniably anarchists, aliens and outlaws. Let us analyze and see.

When a strike occurs, they picket plants, threaten people, assault men, dynamite property, boycott and even murder, they are criminals and opposed to all law.

An anarchist is one opposed to law. When police or the military are called in to preserve the peace, and protect the common people, do these men welcome and uphold them? They do not, but hasten to "protest" and do all in their power to remove them, so they can carry out their acts of violence and law breaking.

They favor no law but their own, and that is the true hall mark of an anarchist pure and simple.

Some one says we are harsh in our description of these men. We are not responsible for their character and acts. They do these things regardless of anyone, and the only way the public can fairly judge them is to know the facts.

It is this class of union men who have placed a boycott on our products, in trying to force us to join their lawless ranks, and ruin some publishers, and they are the ones who propose to punish Mr. Post for fearlessly telling the facts about them and their methods.

A man with a family of children to support was kept out of work by a strike in Chicago. The family would have starved, had he not obtained money to buy them bread.

God Almighty has instilled in the mind of every man, worthy the name, a desire to work and furnish bread and clothing for his little ones, but in this one the labor union said he must not.

God's motive was the strongest, he broke the rules of the union and went to work.

They caught him one evening on the street, knocked him down with brass knuckles, kicked him unconscious, then pried his mouth open, and poured carbolic acid down his throat.

Another man who was forced to work to support his family was met, and the strikers put their fingers in his eyes, gouged one of them out until it hung on his cheek. Are these the only cases of outrage?

Hundreds of acts equally infamous are repeated from day to day, daring strikes conducted by lawless and criminal members of labor unions.

Decent people read with horror the tales of distress, women attacked and sometimes stripped on the street, (St. Louis St. car strike), workmen blown to pieces with dynamite, men assaulted, mobs formed, millions of dollars worth of property destroyed, many lives lost, and a general reign of terror, disorder, and anarchy conducted by the labor trust, in trying to force the balance of mankind to obey, without question the mandates of the leaders of the Unions.

Such outrages on the public peace, and such absolute disregard of the lives, property, and liberty of citi-

zens, has finally aroused the people to a universal, and not to be ignored demand that these criminal bullies be restrained and forced to obey the law, and the unions that harbor them, have forfeited the respect of the public.

The harm these criminals have brought to the fair name of peaceable honest labor is too great to be easily computed.

Such outrages to enslave the liberty of the common and respectable American citizen, make the blood boil and surge. Many of us had foreseen that in 1776 shouldered the old flintlock, left their comfortable homes for the open exposure, wounds, disease, and even death to preserve the sacred heritage of liberty, and that same old sturdy, fearless blood, today boils for the sons to again stand fast, and oppose and crush the ugly spirit of tyranny, and oppression so plainly shown by these labor unions.

There are things in this world dearer than money or business.

We expend about a million dollars a year with newspapers, most of which goes to printers and other workmen. Probably two millions a year more are spread among our work people, farmers, and others.

Our factories cover many acres of ground, and the business furnishes the food and clothing for nearly 3,000 human beings.

This act of the Unions is openly for the purpose of ruining the business, and therefore taking the livelihood from these 3,000 people whom God has created, and naturally intends shall be fed and clothed.

Our work people are paid high wages.

Those who have been with us one year, receive 5 per cent. above regular wages, and the two year and over veterans receive 10 per cent. above the highest regular wages. They are of necessity in the work clean and capable. Most of them own their homes and are unusually thrifty, sober, and prosperous, the savings accounts in one of the banks, numbering above 1,450.

The agitators of the labor unions have tried to introduce their methods of strikes, hatred, poverty and distress among our people to replace the present conditions of peace and prosperity, but thus far our people have been intelligent enough to decline to make the exchange.

It is these peaceable and reputable citizens, living in content, who have done harm to no one, whom these Labor Union Anarchists propose to "ruin" and "put out of business" along with the company.

Every industry is dependent upon the public for its existence, for unless the factory produces articles of sufficient merit to meet the need of the public, no business can result. If a factory produces the very highest grade of goods and a general and effective boycott is established that prevents the public from buying such products, the business must stop. We have stated the facts herein, to the truth of which we are ready to make oath. If the buying great public decide to obey the orders of the Labor unions, and refuse to purchase our products, we have but one thing to do—go out of business and let the families dependent on that business go adrift and shift for themselves. Such ruin will carry down with it everything connected with the industry that has taken years and millions of money to establish. We cannot and will not discharge a single one of our faithful and true tried workmen, upon the orders of any labor union.

Upon these principles we stand. If the unions can make their boycotts effective and sink our ship we will go down, with the captain on the bridge and in command.

WITNESS ARRESTED

He Had Been Dodging to Keep From Testifying.

William Reams Arrested For Slapping Girl—Other Arrests.

Mose Mason, colored, a witness to the shooting of Matt Sneed by Will Corwin, was arrested this morning and recognized for his appearance for the commonwealth. Mason had been eluding the police, not wanting to testify, and this had been delaying the trial of Corwin.

William Reams, white, was arrested at First and Jefferson streets this morning about 11:30 o'clock by Officers Hessian and Hurley for abusing a three-year-old child. The man was drunk and it was stated by several bystanders who had been watching him that he slapped the little girl.

William Steele, white, was arrested this morning for being drunk.

TO ECHO SPRINGS

JUDGE SANDERS LEFT TODAY TO BE ABSENT ANOTHER WEEK.

Judge D. L. Sanders, of the police court, today left for Echo Springs, Livingston county, to spend another week.

Judge Sanders only recently spent two weeks there and was so much improved in health that he decided to return for another week. Attorney Dave Cross will act as police judge during his absence.

GOES ON THE STAGE AGAIN.

The glamour of footlights has again fascinated Walter S. Matthews, formerly of Hopkinsville, and now of Louisville, and he has gone to New York to seek a theatrical engagement. His appearance in Richard III, a number of years ago, will be recalled. He later forewent the stage and tried to content himself in the tobacco business. A couple of seasons ago one of his plays a lurid melodrama, "The Unlucky Mother," was produced. Now comes the announcement of a Louisville paper that he is to tread the boards again.

Fire in the lower part of Strasburg, Alsace Lorraine, destroyed property worth over \$1,500,000.

TOOTH EXERCISE

IMPORTANT FOR ANOTHER REASON.

The necessity of using the teeth freely so that the gentle pressure on the gums will bring down the saliva to help digest the food should not be overlooked. Chew—chew and keep chewing. The result in a few days will surprise one. There is still another important reason, for the gums need the exercise to keep them healthy.

A Peoria insurance man knows something about this from personal experience and speaking of food he says: "The letters published by you from time to time on the subject of Grape Nuts food by Grape Nuts users have three fine points—the delicious quality of the food, the tone imparted to the whole system, and the wonderful brain rebuilding effects."

"But there is still another point which strikes me as very important and very strikingly illustrated in my case. Twice a year I have my teeth examined by the dentist and given such attention as is found necessary."

"Up to the time I began to use Grape Nuts three years ago there was never a visit to the dentist but I had to have one or more defective teeth filled, but since eating Grape Nuts the same dentist has examined my teeth every six months as before but has never found another cavity."

"Not only has this delicious cereal food helped my digestion and general health but I know it has also helped my teeth become sound and strong by giving them and the gums a proper exercise." Name given by Postum Co., Battle Creek, Mich.

Grape Nuts comes crisp for a reason. People should chew their food for the reasons given above. Put the Grape Nuts in one side of the saucer cream in the other and take up a little of each in every spoonful. In this way not only will the flow of saliva be increased but the teeth and gums will be made sound and strong.

30,000 FARES

COLLECTED BY THE STREET CAR COMPANY YESTERDAY.

The Paducah City Railway Company did an enormous business yesterday hauling the eighth of August crowds.

Up until press time the clerical force of the car office had not counted all the fares but had gone far enough to see that the business was greater than last year when the eighth of August celebrations were held. The total fares collected last 8th of August amounted to 24,800 but this year it will go nearly to 30,000 it is thought.

KILLING IN TENNESSEE

Paris, Tenn., August 9.—In a row among the negroes who had gathered at the Sulphur Well to celebrate Emancipation day Monday, a young negro named Charley Gray was shot and instantly killed by John Scott, the affair taking place between the men in the midst of the crowded ballroom and both emptying their pistols at close range. There had been so much noise and promiscuous firing that the white deputies paid no attention to the affair until Scott had made his escape, but it is thought he will be caught in a few hours.

PAPER KETTLES FOR JAPS.

In the Japanese army every soldier carries with him kettles which are made of paper, the invention of one Daijo. The kettle is made of ordinary thin Japanese paper. It is filled with water, and then water is poured over it. It is hung over the fire and in ten minutes the water is boiling. The kettle can be used eight times and the cost of it is about two cents.

OFFICERS MUSTN'T OPEN THE LETTERS

Uncle Sam Rules That Prisoners' Mail is Private.

The Practice of Intercepting and Reading Criminal's or Suspect's Mail is Against Federal Law.

A FINE AND IMPRISONMENT

Many people have doubtless read where jail deliveries have been prevented, stolen goods recovered, and badly wanted fugitives have been captured, by the jailer or some other officer intercepting letters to or from prisoners in jails, penitentiaries or other prisons. In the past most civil officers have imagined that they had a perfect right to open any prisoner's mail, but now there is a change.

Intercepting, reading or tampering with such letters is a thing of the past. The postoffice department has ruled that no sheriff, deputy sheriff, police officer or jailer has any right to open the mail of prisoners, or persons in custody, accused of a crime. The postal laws distinctly forbid an officer from prying into the affairs of a prisoner. The letters and all other mail of prisoners must be directly delivered to the person addressed, unopened. No law authorizes any officer to tamper with mail matter. A civil officer has no more right under federal law than the ordinary citizen. The officer or citizen who fails to respect the mail of another person subjects himself to indictment and may be fined \$500 and imprisoned one year at hard labor.

This will be bad news to officers all over the country, although the right to open mail, even though it be the mail of prisoners and criminals, is questionable even from a moral standpoint.

It would be difficult to determine how much has been accomplished by officers in the law, in the way of apprehending criminals on account of the privilege of opening such mail, but if it is hereafter practiced, it must be in such a way as to not become known.

POLICE BOARD

Cordons to be Stretched Around Burning Buildings.

Too Many People Crowd About Fires—Valuables to Be Stored.

The regular meeting of police and fire commissioners last night was devoid of anything of an unusual nature. It was ordered that hereafter when fires occur in the fire limits—between the river and Sixth street, and Clark and Monroe streets, embracing all the principal business houses, Patrol Driver John Austin and police officers stretch a cordon about the building to keep away the crowds, as they do in cities.

When there is a fire in the business section of Paducah, it is claimed, the crowds become so great that the firemen cannot fight the fire. In addition shop thieves take advantage and it is claimed goods are missed on account of the failure to keep everybody except those engaged in actively fighting the fire away from the scene.

Chief of Police Collins was ordered to place the watches and other valuables in possession of the police department in the vault at Nagle's, in order to insure their safe keeping. These valuables have been obtained by capture and otherwise and it is not known what disposition will ultimately be made of them, this to be left to the general council.

NOT A MISHAP

Although Railroads Handled Thousands Yesterday.

Few, if Any, Got Left—Trains All Run Regularly.

The Illinois Central did a large business in excursions yesterday, bringing into Paducah several thousand people.

Superintendent Egan, of the Louisville division of the road, was in the city today and stated that the trains were run regularly and without accident, which speaks well for the employees of the road. Trains were run in from all points of the road. The visitors understood the schedule of the trains and no one was left who wanted to return last night.

The N. O. & St. L. road brought in a few under 1000 and reports there was never a more orderly crowd. There were no accidents on that line, either, and all trains ran on time.

HERBINE

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over-indulgence in food and drink. Herbina acts quickly, a dose after meals will bring the patient in to a good condition in a few days.

G. L. Caldwell, Agt., M. K. and T. R. R., Chocoma, Ind., Ter., writes, April 1, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbina. It has made me sound and well." Geo. DuBois, Kolb & Co.

TOO QUICK FOR OFFICER

John Scott, colored, wanted at Union City, Tenn., for breaking jail after having been sentenced to the penitentiary for three years for larceny, was spotted at Fifth and Broadway yesterday by an officer from Tennessee who made a lunge for him. The negro was too quick however and made his escape in the crowd.

BLOODY FIGHT

MARSHALL COUNTY FARMERS MIXED SUNDAY NEAR HENTON.

News has reached the city of a bloody if not fatal fight near Henton Sunday. Wm. Durand and Rufus Ethridge are brothers in law and well known farmers living about a mile from Henton. It seems Ethridge and his wife did not get along well and she went to live with Durand and family. Ethridge went after her Sunday and he and his brother-in-law quarreled and Ethridge was struck in the head with a rock and badly hurt. He whipped out his knife and slashed Durand in several places. He waited examination before County Judge Fisher at Henton and was held for malicious cutting.

RECALLED A STORY.

"Did you mail that letter I gave you this morning?" she asked her husband yesterday.

"I did," he said, with all the pride of virtue found out. "I found it in my pocket on the way and it reminded a clergyman who was with me of a story."

"The clergyman said he had gone to offer his sympathy to a woman whose husband had just died."

"Aren't you going to build him a fine monument?" he asked her.

"I certainly am not," she replied. "Why I was going through his pockets this morning and found five of my letters he had forgotten to mail." — New York Sun.

The Blazed Trail

By STEWART EDWARD WHITE

Copyright, 1903, by Stewart Edward White

"Kiss me, dear," she said. She leaned her cheeks against her hand and her hand against his shoulder. "I have been reading a story lately," said she, "that has interested me very much. It was about a man who re-nounced all he held most dear to shield a friend."

"Yes," said Thorpe.

"Then he renounced all his most valuable possessions because a poor common man needed the sacrifice."

"Sounds like a medieval story," said he, with unconscious humor.

"It happened recently," rejoined Hilda. "I read it in the papers."

"Well, he blazed a good trail," said Thorpe's smiling comment. "Probably

right now and get something to put on. Then you are coming back here to stay."

Thorpe glanced in surprise at his driver's clothes and his spiked boots. "Heavens and earth!" he exclaimed. "I should think so! How am I to get out without riding the door?"

Hilda laughed and drew aside the portiere.

"Don't you think you have done that pretty well already?" she asked.

"There, don't look so solemn. We're not going to be sorry for a single thing we've done today, are we?" She stood close to him, searching his face with light with her fathomless dark eyes.

"No, sweetheart, we are not," replied Thorpe soberly.

CHAPTER XXXVI.

STILL it is useless to follow the sequel in detail, to tell how Hilda persuaded Thorpe to take her money. To a woman such as she this was not a very difficult task in the long run—a few scraps of pride, that was all.

"I hate to do it," he said. "It doesn't look right."

"You must," she insisted. "I will not take the position of rich wife to a poor man. It is humiliating to both. I will not marry you until you have made your success."

"That is right," said Thorpe heartily. "Well, then, are you going to be so selfish as to keep me waiting while you make an entirely new start, when a little help on my part will bring your plans to completion?"

She saw the shadow of assent in his eyes.

"How much do you need?" she asked swiftly.

"I must take up the notes," he explained. "I must pay the men. I may need something on the stock market. If I go in on this thing I'm going in for keeps. I'll get after those fellows who have been swindling Wallace. Say \$100,000."

"Why, it's nothing," she cried.

"I'm glad you think so," he replied grimly.

She ran to her dainty escritoire, where she scribbled eagerly for a few moments.

"There," she cried, her eyes shining—"there is my check book all signed in blank. And I'll see that the money is there."

HEALTHY MOTHERS

Mother should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Hoes' German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectation easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles, 25c; large size 75c. At Dr. Hoes, Kohn & Co.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure.

An intelligent mother is Butler, Pa., says: "I used Mother's Friend again, I would obtain 9 bottles if I had to pay \$3 per bottle for it."

THE OLD BOOKS

Adopted by the Board of Education Committee.

This is the First Step Towards the Fight Against the School Book Bill.

The rules and regulations committee of the board of education last night adopted the same books used last year, which means that the local schools many not use the books selected by the county authorities for the city schools unless the courts decide that it is necessary.

It is not known what steps the American Book Company will take to enforce the law. The books now used are furnished principally by the American Book Company.

The books for city schools are usually selected by professors and superintendents of wide experience and more or less ability, and recommended to the boards, but under the present state law the county judge, attorney and superintendent, who may or may not know anything about the best school books, decide what books shall be used in the city schools. In some counties these officials may be as competent to make the selections as anyone else, but in others they doubtless are not. Hence a hot fight will be made to preserve the old method of selection of city books.

The board held a called meeting last night and assigned a number of the city teachers to their grades, but as it did not finish it decided not to give out the list until the whole thing is complete. The board is behind this year, as the assignments are usually made a month or longer sooner than now.

The gospel of success is simply the worship of the god of self.

Hayes' Beechwood Emulso-Hypo With Iron

Makes Fat, Strength, Blood, Bone and Muscle.

If you are tired, broken down, despondent, worn out, pale, losing flesh, have no energy, do not feel like rising in the morning for the day's work, you need a bottle of this wonderful medicine. Do you want good rich red blood? Do you want the bloom to come back to the cheek? Are you convalescing after having fever, pneumonia or measles? Then you ought to take a bottle of EMULSO-HYPO. Its medicinal food that reaches every tissue in the body and builds you up. Taken in a little wine its as pleasant as cough syrup.

Read what the editor of the Meridian Star of Mississippi, A. G. Davis, writes under date of April 8:

"My mother took the Emulso-Hypo and has been greatly benefited. She is in better health than she has been in years."

J. W. Russell, county clerk of Hickman county, Tenn., writes:

"My wife has used several bottles of Emulso-Hypo with Iron and has been wonderfully improved. I can conscientiously recommend it for all lung trouble."

Rev. G. T. Sullivan, presiding elder of the Memphis district, writes under date of Dec. 1, 1903:

"My daughter, whose system was very much run down, has been taking your Beechwood Emulso-Hypo with iron, and has improved so much with one bottle I have no doubt by continuance she will be fully restored in her nerve forces. I am delighted with the results and shall continue her on it. Wishing you prosperity, I am, yours truly,
